## EXPERIENCE & QUALITY

**Spanish Abroad has been to every school with whom we offer programs!**

If you are like most people, your trip to study Spanish will be your first visit to the country where the school is located. Assuming your only contact has been with the school you are interested in. How do you really know if the information they have provided is accurate? You don't!

The only way to be 100% certain about any school is to visit it yourself, or talk to someone who has.

Fortunately, when you contact Spanish Abroad, you will have the opportunity to speak with someone who has personally visited the school you are interested in. We are uniquely qualified to answer the questions you may have concerning our various schools, and their locations.

**When you talk with someone at Spanish Abroad, you will always receive unbiased evaluations of every program we offer.**

Spanish Abroad is an independent agency, and as such, has no incentive to send students to any particular program over another. It is our goal at Spanish Abroad to register you in a program that offers exactly what you are looking for. We'll listen to your needs and objectives, and then recommend the program that is best for you.

**Let us help you find the "right" program!**

Remember, there are many good schools to choose from, but each one has a different objective. For instance, some schools focus on providing programs and activities for college age participants. If you are a professional, you may want to consider attending a different school that has programs and activities geared towards your particular needs and wants.
